Register for Tungsten Network

Welcome to the Tungsten Network portal. This portal is a secure platform that will help you to submit all your invoices to your customers and much more. This video will show you how to register to get started right away. Depending on which link you clicked on to get to the portal registration page, the information to register is located under the REGISTER button – if you see this button, please click on it now. Once you click register, you will be shown a form to fill in. Either way you are in the right location to register.

Please fill in the 3 fields. Once the field has been accepted, you will see a green check mark.

The screenshot shows the Tungsten Network registration page. The header includes the Tungsten Network logo and a 'Login' link. The main heading is 'Thank you and welcome to our main registration page' with a sub-heading 'Please register below and get access to your account straight away'. The registration form contains three fields: 'Your language*' (English), 'Country*' (UNITED STATES), and 'Company Name' (Tungsten Network). The 'Country*' and 'Your language*' dropdown menus are highlighted with a red box and each has a green checkmark to its right. To the right of the form, under the heading 'Once registered you'll get:', there is a list of benefits: '52 FREE invoices per year', 'Simple and secure service', 'Option to upgrade to our full Integrated Solution', and 'Full support and help'. Below the form, there is a section titled 'Trusted by the world's top companies' with two columns of statistics: 'Total transaction value in FY16 \$178 Billion' and 'Number of suppliers Over 200,000' on the left; 'Total transaction count in FY16 16.1 Million' and 'Number of buyers 176' on the right. A blue play button icon is next to the text 'How to register with Tungsten Network'. The footer contains four colored buttons: 'Create' (blue), 'Deliver' (teal), 'Track' (orange), and 'Get paid' (green), each with an icon.

When filling in Company name, if we have your firm in our system, the name should populate. If we do not have your name in the system, you will see the “No data found, please click here to input your details.”
