What is Tungsten?

Tungsten is a third-party portal used by Kenvue, to manage supplier invoices and help ensure they are paid quicker and more efficiently. It is a Global provider used by many businesses across the world.

Each Tungsten supplier account has one Admin User who can add/delete users and is responsible for granting access. Your Tungsten account can be set up with as many users as required by your organization.

Getting Started

Please follow the steps below to start sending invoices

Tungsten Network offers two methods of sending your invoices: a fully automated process that integrates with your billing system (Integrated Solution), or an easy-to-use online portal (Web Form) which is completely free to use for the first 52 invoices you send through the service in any given year, while additional batch of invoices can be purchased at any point.

Please follow the steps below under ‘Register Account’ to register for a [Web Form](#) account. For more information on the Integrated Solution go to [Integrated Solution](#).

[Register account](#) -> [Configure account](#) -> [Set up relationship](#) -> [Send first invoice](#)

Register account

- **If your company has received an email invitation**

If you have received an invite from Kenvue and Tungsten to activate your Tungsten account, please follow the link provided.

- **If you have not received an email invitation**

If you have not received an email invitation with a link to activate your account, please follow the below steps to register an account: you can register for a Tungsten account here:

Access the link [Tungsten Registration](#)

For more details and instructions to step-by-step click [here](#)

- **If your company is not new in Tungsten and already has an account**

If you have a Tungsten account, please see the step [Set up Relationship](#).

Note: If during registration you see a pop-up message indicating the Tax/VAT reg. number is already in use, this means your company already has an existing Tungsten account (i.e., registered in the past to send invoices to a different customer)

Contact Tungsten Support [here](#) to obtain the name of the Admin User of your existing account so that you can be setup as a User.

Please do not bypass the registration checks by creating an account without Tax/VAT reg. number as it will lead to duplicates.

Configure Account

How to access your company's existing account

- **If you are not setup as a user of your company's Tungsten account**

Contact your Admin User and request they add you as a Portal User. A video guide on how they can add you as a User can be found [here](#)

- **If you do not know who the admin user is**

Contact Tungsten Support [here](#) and Tungsten will provide you the Admin User details.

- **If the Admin User is no longer an employee or changed position**

Provide a document signed by a manager containing the following information:

- Confirmation that the current Admin User is no longer part of the company or changed position.
- First name and last name of the new Admin User.
- Email address and phone number of the new Admin User.
- The signature and the official stamp/logo of the company.
